SVERDLOVSK ARMS PLANT NO 9

Arms Plant No 9 (56-52N 60-35E) is one of two arms plants (Plant No 8 is the other) within the target complex of Sverdlovsk, USSR, that are known major producers of heavy-caliber artillery, antitank, and naval guns. 1/ This plant, in common with other artillery plants, has a good potential for the development and production of guided missiles. 2/ Photography however, shows only two components that may be connected with missile production: the high-bay production building (Figure 2, item 8) and the secured shipping and receiving area (item 12).

The arms plant has a total ground area of approximately 9,500,000 square feet and a total usable floor space of approximately

The major components of the plant are annotated on Figure 2 and described in the accompanying table of annotations.

FIGURE 1. SVERDLOVSK ARMS PLANT NO 9. The plant is in the compound containing the Sverdlovsk Heavy Equipment Plant in north-central Sverdlovsk
